

# vibiscus®

## smart electroacoustic silencer

### Applications

- Ventilation ducts
- Air conditioning systems
- Air distribution networks
- Industrial environments

#### Acoustic performance

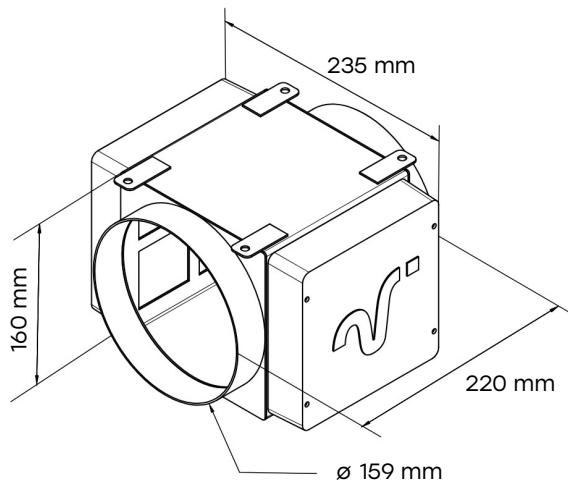

- Up to **10 dB**
- Effective attenuation from **125 Hz**
- Optimal between 250 and 1000 Hz

#### Low pressure drop

- Optimized for **sustainability**
- Low electrical consumption < 10 W
- At 500 m³/h - less than **3 Pa**

### Technical details

- Compact and **patented** design
- High **quality** materials
- Resistance to standard conditions

#### Easy to install

- **Compatible** with standard ducts
- Easy and **quick** installation
- Effortless maintenance

#### Technical support

Our team is available for :

- Installation support
- **Performance** optimization
- Specific case studies
